

Validation Task Execution 2026-06-07
Execution Status: Blocked
Evidence Status: NeedsMoreEvidence
Task: reportGapTask_e075e54ff090b224301e
Symbol: AAPL / US
Providers Requested: Yahoo Finance
Providers Used:
Result Status: NotRun
Overlap Rows: 0
Max Close Diff: 0.00%
Mean Close Diff: 0.00%
Blockers: at_least_two_real_providers_required

FACT: Cross-source validation was not run because required inputs or provider coverage were missing.
INFERENCE: The evidence gap remains open; no data-quality conclusion should be upgraded.
Next Action: Configure at least two real providers or fill missing symbol/market fields, then rerun.

Research-only. No live trading. No real orders.
Error: Validation input is incomplete or fewer than two real providers are available.
